## **BOOK SYNOPSIS**

One of the most influential political science works written in the post World War II era, the original edition of *Essence of Decision* is a unique and fascinating examination of the pivotal event of the cold Cold War. Not simply revised, but completely re-written, the Second Edition of this classic text is a fresh reinterpretation of the theories and events surrounding the Cuban Missile Crisis, incorporating all new information from the Kennedy tapes and recently declassified Soviet files. *Essence of Decision Second Edition*, is a vivid look at decision-making under pressure and is the only single volume work that attempts to answer the enduring question: how should citizens understand the actions of their government?
